

Centro Trip Planner

Trip Planner is a useful tool to determine the best path of travel to get you to your destination. Trip planner is customizable to find trips with the fastest times, fewest transfers, and shortest walking distance based on your needs.

Since the Trip Planner seeks out the best options for your travel planning, one must only enter in the requested information. Many roadways have both local and regional labeling which Trip Planner can decipher from (i.e. US Route 11 is also known as North Main Street and Brewerton Road depending on the location). It is recommended that punctuation, and directional labeling (N., North, East, South, and West) be excluded along with State, City, and Zip code when entering in information in the blank fields provided. If full street names are included, please use the abbreviations listed at the bottom.

To get started, all you need to have is: starting address, ending address, and the date and time of the requested trip. Once that information has been entered in, a choice between the fastest trip, fewest transfers, or shortest walking distance remains to identify the best results.

1. Where does your trip start?

Examples: 200 Cortland, Cortland and Tallman, or CNY Centro

Do not include city name, state, zip code or punctuation.

2. Where does your trip end?

Examples: 200 Cortland, Cortland and Tallman or CNY Centro

Do not include city name, state, zip code or punctuation.

3. When is your trip?

Trip Date: (MM/DD/YY)

I want to Leave my starting point Arrive at my destination At : AM PM

4. Which is the most important?

- Fastest Trip
- Fewest Transfers
- Minimal Walking

If Trip Planner needs clarification on a particular address or time of trip, a prompt will ask you to select which address is the one you are looking for out of similar choices, or will ask you to resubmit a different time. The Trip Planner will then generate a list of the best options within the selected parameters for you to choose from. This tool also provides you the ability to generate a return trip by auto-filling a new form for you to plan your return trip.

Approved abbreviations:

PLEASE USE the following abbreviations:

DIRECTION	Prefix/Suffix
E	East
N	North
NE	Northeast
NW	Northwest
S	South
SE	Southeast
SW	Southwest
W	West

Acceptable Abbreviations
