GoCentroBus app

Routes

Riders across Centro's 4-county service area can access real-time vehicle location and predicted arrival information. Select the **Routes** feature, bus line, direction of travel, and bus stop, and the app will provide estimated arrival times for that location over the next 45 minutes. To view the bus's location on a map, tap the "*Where's My Bus*" button.
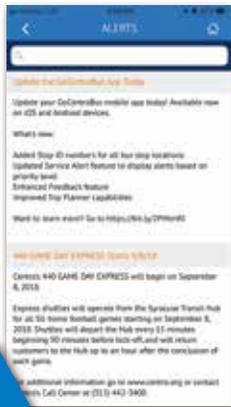

Bus Stops

The "**Nearest Stops**" locator will provide a list of bus stops (by Route) in close proximity to the user's location based on the GPS coordinates of their mobile device. Once a stop has been selected, it can be viewed on a map (as a pin drop) by tapping the "*Where's My Bus*" button.
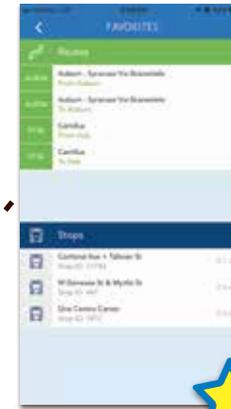

Alerts

Get the latest service and schedule information in the **Alerts** feature. View delay, detour, and service changes for your bus line, route, or stop by tapping the **Alerts** button in the upper-left corner of the screen in the **Routes** or **Bus Stops** features.
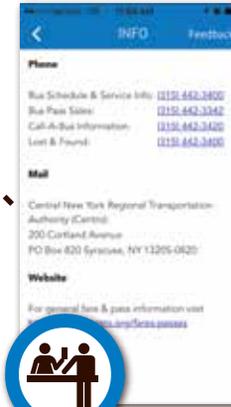

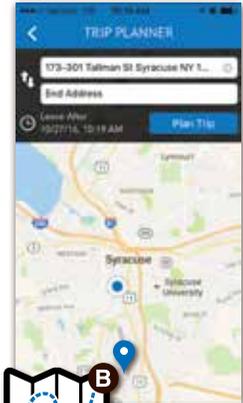

Favorites

Riders can save frequently used bus stops and routes for easy access. To save a stop or route, simply tap the "star" icon located in the upper right corner of the screen when using the **Routes** or **Bus Stops** feature. The selected stops and routes will now appear in a list on the **Favorites** feature. To remove a stop or route from the list, simply tap the "star" icon again.

Trip Planner

Riders can find the best travel options to their destinations using the **Trip Planner** feature. This tool generates itineraries, which include total trip time and distance, as well as walking directions to the nearest bus stop. *Note: The **Trip Planner** feature utilizes current bus schedule data. For real-time information, riders should use the "**Where's My Bus**" button in the **Routes** or **Bus Stops** features.*

Info

Use the **Info Feedback** feature in the upper-right corner of the screen to submit comments or suggestions about the *GoCentroBus app*. Access Centro contact information for trip-planning questions, Lost & Found items, Call-A-Bus paratransit service, or Pass sale concerns.

For more information about real-time bus tracking and the *GoCentroBus app*, visit our website at
