## SY84 BUS ROUTE TO RESUME SERVICE TO MALDEN-FLORIDA-MOLLOY ROADS

**Syracuse, NY** – Effective September 16, 2024, Centro will resume service to the Malden-Florida-Molloy Road corridor as part of its SY84 Mattydale-Airport bus line. The bus route was modified in September of 2023 on a trial basis to offer new service to Hancock International Airport. Going forward, each bus trip will serve the airport **and** the Malden-Florida-Molloy Road corridor as it had previously.

“Ridership on this bus route has been growing significantly since the end of spring. However, we think returning service to this corridor serves the overall public good and has the potential to increase ridership even more,” said Centro Vice President of Communications and Business Development Steven Koegel. “We want to thank the individuals who expressed their concern at our recent public hearing. Your valuable input helped us make this decision.”

The new SY84 bus route and timetable is now available on Centro’s website at [www.centro.org](http://www.centro.org)
